SUMMARY

Computer Science undergraduate at CHARUSAT with hands-on experience developing web applications, machine learning projects, browser extensions, and role-based software systems. Experienced with Python, C++, JavaScript, React, Next.js, Streamlit, databases, Git, and machine learning libraries. Interested in software engineering, data, and machine learning roles.

PROJECT EXPERIENCE

AI-IGMS | Integrated Government School Management System - React | Vite | JavaScript | MongoDB

- Developed a role-based school management platform for Principal, Teacher, Student, and Parent users.
- Implemented attendance, marks, leave, student management, teacher management, notices, and timetable modules.
- Developed student and parent dashboards with role-based authentication and navigation.
- Built and integrated a dedicated Parent Portal.

Student Placement Prediction - Python | Pandas | NumPy | scikit-learn | Streamlit

- Developed a machine learning application for student placement prediction.
- Performed data preprocessing, model development, and evaluation.
- Presented the prediction workflow through a Streamlit application.

EXPERIENCE

Data Science / AI-ML Summer Intern - Sparks To Ideas, Ahmedabad, Gujarat

11 May 2026 - 12 June 2026

- Completed a Data Science internship focused on practical applications of data science technology.
- Worked on exploratory data analysis, cleaning high-dimensional unstructured datasets, and preprocessing.
- Gained hands-on exposure to data analysis and machine learning workflows using Python.
- Developed a Student Placement Prediction project as part of the internship work.

EDUCATION

B.Tech in Computer Science & Engineering - CHARUSAT University, CSPIT | 2024 - Present

Current: Semester 5 - CGPA 7.90 / 10

Higher Secondary Certificate (Class 12), Science - Gujarat Board, 2024 - 85%

Secondary School Certificate (Class 10) - Gujarat Board, 2022 - 90%

KEY SKILLS

Programming: Python, C++, JavaScript, SQL
Web Development: React, Next.js, Node.js, Express, Vite
Machine Learning & Data: Pandas, NumPy, scikit-learn, FAISS, SentenceTransformers
Databases: MongoDB, Supabase PostgreSQL Tools: Git, GitHub, Streamlit, REST APIs
Core: OOP, Data Structures & Algorithms, Problem Solving

HACKATHONS & ACTIVITIES

- IBM Bobathon AI Innovation Hackathon 2026 - SmartRoute AI
- CyberKavach Community Day 2026 - Cyber Confluence, CHARUSAT
- Databricks Fundamentals Accreditation (Oct 2026)
